

This boat has the same luxurious interior features and galley features as our larger boats. There are two bedrooms, one with queen bunk beds, and one full bath. The main salon also has a queen sofa sleeper. An LCD TV and DVD player are standard equipment. The kitchen has full-size all-electric appliances and is fully equipped with dishes and utensils for 12 persons. There is plenty of counter space and storage space. The floors throughout are laminate floors for easy maintenance.

This boat is powered by a single Mercruiser 5.0 I/O engine with MMC controls. There is a 15KW Westerbeke generator and an inverter to keep your refrigerator running at all times. This boat carries 300 gallons of fuel and has an electric pump for fueling powerboats and PWCs. There is ample fresh water capacity and waste water tanks.

The upper deck is equipped with a flybridge with full controls. There is a waterslide, a party top for shade, a picnic table, stack chairs, lounge chairs and carpeting. There is also a Conversation Pit that converts to a queen sleeper.

The boat is also equipped with a stereo system with XM radio.

This program is especially designed for smaller families and smaller groups, but provides the same conscientious management service our larger boats receive.
